

Save A Watt® HD

HEAVY DUTY PROGRAMMABLE TIMER

Simply connect your appliance to the Save A Watt® HD and then program ON/OFF periods to save electricity and money! Using our patent pending technology, the Save A Watt combines the advantages of mechanical and electronic timers into one easy to use unit.

The Save A Watt HD is one of the most sophisticated timers on the market but is very easy to understand. It's a digital version of a standard mechanical timer with a visual interface. Easily program quarter-hour ON/OFF periods for 7 days and 24 hours as you would program a traditional mechanical timer.

The Save A Watt HD is not limited to 1 day of programming – the unit allows unique settings for each of the 7 days of the week. In addition, there is also a Holiday Mode as well as a Random feature for when you're away from home.

Programming is stored in memory and retained during power outages and the backup battery (3X AAA batteries – not included) allows armchair programming before you even plug it in.

With the innovative Save A Watt HD you'll have peace of mind!

- **Combination multi-event, 7 day / 24 hour programmable timer**
- **Easy to read, backlit LCD display**
- **Override switch turns appliance ON or OFF until next programmed set point**

Additional Features:

- Holiday mode allows a unique day of programming (an "eighth day") that can be engaged at will
- Random mode will follow the preset programming but will turn the appliance on/off at +/- 0-15 minutes from the set points
- Over Temperature protection function shuts down appliances that are causing high temperatures due to over current or poor connectivity
- LED nightlight can have its own programmed schedule independent of the connected appliance's schedule
- Soft power-up eliminates harmful voltage spikes

Specifications:

Model:	P4472
Operating Voltage:	120 VAC
Max Voltage:	125V
Max Current:	15 A
Max Power:	1875VA
Batteries:	3X AAA (not included)
Weight:	9.5 oz.
Dimensions:	5 3/8"H x 2 3/4"W x 2 3/4"D

Specifications subject to change without notice.
