

Share A Watt™

SMART WARMER CHARGER

Winter presents enough challenges without having to worry about frosty fingers or a dying cell phone battery. Now you can have relief from both with our multi function Share A Watt™ Smart Warmer and Charger. Just plug the USB into your computer and in a few hours it is fully charged and ready to go.

Slim and lightweight, you can carry it with you anywhere you need a convenient source of soothing heat. Switch it on, slip it into the knit sleeve, and place it in your pocket. In as little as 60 seconds your hand will start to feel the comforting warmth inside your pocket.

The cell phone charger is especially useful. When you notice your battery is low, just plug in the mini USB into your phone and you'll get an emergency charge that will keep you going. The built-in light feature also comes in handy when you're in a dark place and need a little extra light.

The Share A Watt Smart Warmer-Charger is ideal for winter commuters, or recreation activities. Take it with you anywhere, and make sure your hands are warm and your phone is fully powered.

- Warms to a safe temp. of 104°
- 360° rotary switch
- Super-slim and lightweight
- Can be recharged over 500 times
- Aluminum shell for thermal conductivity
