

P7806  
Animal Chaser Pro

Congratulations on your purchase of the P7806 Animal Chaser Pro. Please read these operating instructions thoroughly before use. It is important for proper use of the product.

The Animal Chaser Pro provides a convenient, effective and humane way to deter cats, dogs, and even raccoons from your garden, yard and lawn without harm. This product utilizes a sophisticated PIR (passive infrared) detection system to monitor a large area by up to an approximate distance of 23 ft. When an animal enters the area covered by the infrared sensor, the Animal Chaser Pro produces an ultrasonic sound at a frequency range from 18 kHz up to 60 kHz that is very unpleasant to animals but virtually inaudible to the human ear. In addition to the noise the unit emits, the Animal Chaser Pro also emits an intense LED strobe light to further ward off unwanted animals.

- c. Passive Infra-red motion detector (PIR)

- d. Switch
- e. Battery Compartment

**WARNING:**

- ! Turn off the Animal Chaser Pro if your pet is playing in the protected area. !
- ! Do not immerse the unit in water or any other liquid. !
- ! Do not modify or tamper the unit or its internal components. Covering or painting over the front speaker grill can damage the unit and cause it to malfunction. !
- ! For best function, keep the PIR lens clear. Use a damp cloth to wipe them. Do not use benzene, alcohol or paint thinner. !
- ! Do not mount where it can fall and injure others. !

**Note:**

For outdoor use only. Your pets may not be deterred by this product as they see your home as their home and territory.

**Battery Installation:**

1. Remove two screws on the bottom of unit to access battery compartment
2. Insert 5 x "AA" alkaline or lithium batteries. Be sure to follow the polarity diagram and insert the batteries correctly. Do not mix old and new batteries.

## HOW TO INSTALL

With Mounting Plate:

1. Determine the location you want to place your Animal Chaser Pro.
  - Mounting locations are preferably at 5 to 8 ft in height, in view of the protected area, out of reach of children and placed where it can not fall and injure others.
2. Using a pencil, mark the center of where you would like the screw to be placed and have a drill bit a little smaller than the closed end of the plastic anchor ready.
3. Using the drill bit, drill a hole through the center of your mark and about as deep as the anchor is long.
4. Using a hammer or rubber mallet, gently tap the anchor until it is flush with the wall.
5. Insert the screw and slowly rotate it into the anchor leaving about  $\frac{1}{8}$  or  $\frac{1}{4}$  of the screw out to hang the Animal Chaser Pro.

Note: Anchors are most notably used on drywall and plaster, for most other walls it is not needed.

With Stand:

1. Connect all pieces of stand together.
2. Unscrew the mounting plate from device.
3. Replace the mounting plate to the stand.
4. Determine the location you want to place your Animal Chaser Pro with stand.
